Instructions for authors:

1. The title of the abstracts should be 20 words long or shorter and written in plain text .
2. The main author should be the speaker, whose full name (first name, middle name initial and last name), affiliation (Department, Institution, City, Country) and e-mail address must be provided in the first page.
3. The text of the abstracts should be 250 words long or shorter and written in plain text.
4. Less than 9 references could be added using LaTeX keys. The LaTeX keys are defined in the bibliography section using a Digital Object Identifier (DOI) (a valid URL address from which the bibtex reference can be retrieved automatically).
5. If you need to include formulas in the abstract, please use LaTeX syntax.
6. Special symbols either in the abstract or in the names of the authors should be included using LaTeX syntax.
7. One figure could be optionally added to the abstract. Figure should be a cropped image file (png format) with aspect ratio (width/height) <2 and a file size < 1Mo.
8. Collaborators are added in separate forms. Each form should gather all names with common affiliation.
9. The number of collaboration nodes is limited to 3. Because Google form does not allow yet to adapt the size of the form depending on an input, 3 pages are provided for each institution. Just skip the pages if the inputs are blank.

Please fill-in the below the fields and click the Submit button at the bottom of the last page to submit the abstract. Successful completion of the submission process is confirmed by a receipt message. If you have problems or questions related to the submission of abstracts please contact the organizers using the e-mail address:
